# Greatest War In History Formally Ends Today With Signing of the Peace Treaty

## GERMANS ARE FIRST TO AFFIX THEIR SIGNATURES

Foreign Minister Mueller Writes Name, Followed by Colonial Minister Bell, and President Wilson, First of Allied Delegation to go Through Ceremony, Signs at 3:14 p. m. South African Delegate Issues Statement Objecting to Treaty.

## CHINESE DELEGATION REFUSES TO SIGN

(By United Press.)  
Versailles, June 28.—The greatest war in history formally ended today with the signing of the peace treaty.

The ceremony took place in the historic palace of Versailles, proceeding with clock-like regularity.

The German delegates, Foreign Minister Mueller and Colonial Minister Bell, were ushered into the Hall of Mirrors at 3:08 o'clock. Premier Clemenceau immediately opened the meeting by assuring the German delegates that the treaty text was identical to the one presented to them. Mueller was the first to sign, placing his signature at 3:12. Bell followed him.

President Wilson, the first of the allied delegation to sign, wrote his name at 3:14 p. m. General Smutt, representing South Africa signed under protest issuing a statement setting forth his objections to the treaty.

The Chinese delegation was not present. Recent word was sent to Peking for instructions.

The signing was by delegations in the following order:

Germany, America, British, including colonial, France, Italy, Japanese and smaller nations.

Clemenceau declared the proceeding closed at 3:50, the entire ceremony occupying forty-one minutes.

"The condition of peace are now an accomplished fact. The proceedings are closed," Clemenceau said.

The allied delegation remained seated as the German delegates departed at 3:52.

After the allied peace treaty was signed and at the conclusion of the ceremony, guns boomed and thousands of jets of water spurted from fountains in the park.

Several thousand civilians were delirious with joy, cheering the delegates. Many of the spectators wept with emotion. Portions of the crowd swept over police barriers and the delegates became imprisoned by throngs of civilians.

Two white quill pens and three hand-embossed gold pens lay on the signing table which stood only a few yards from where William I was crowned. Quill pens also were on the two smaller tables nearby.

## U. S. SHIPS FIRE A SALUTE

Secretary Daniels Flashes Order to Every American Vessel

(By United Press.)  
Washington, June 28.—Upon the signing of the treaty, Sec. Daniels flashed orders to every American ship in the harbor and to every shore station to fire a salute of twenty-one guns.

The Germans were forty years preparing for war. The treaty ended their dream of world dominion with the signing of the treaty in as many minutes.

and two gold pens were at each delegates place.

The pen with which Premier Clemenceau signed was presented by the people of Alsace Lorraine. It was gold-plated. In the center were two medallions bearing the image of a poilu in a field uniform and the image of an Alsatian church tower.

Paris, June 28.—Approval of the credentials of the new German plenipotentiaries, Dr. Hermann Mueller and Dr. Johannes Bell, completed arrangements for the signature of the peace treaty. The enemy delegates arrived by automobile early today from the station at St. Cyr. In response to an objection by the Germans, Paul Dutasta, secretary of the peace conference, previously presented to the enemy headquarters at Versailles a letter from Premier Clemenceau certifying that the treaty submitted for signature con-

## Wilson Issues Proclamation Declaring War At An End

President Declares it Will Furnish Starter For New Order of Events in the World. Severe Duty and Penalty is Imposed Because of the Wrong Germany Committed.

## DOES AWAY WITH RIGHT OF CONQUEST

(By United Press.)  
Washington, June 28.—Germany today signed the peace treaty.

Nearly five years after a lustful monarchy started out to conquer the world, a beaten people today affixed its signature to the allied bill of indebtedness and guilt.

Word of signing flashed to America, was followed by a proclamation from President Wilson issued at the White House as follows:

"My fellow countrymen—

"The treaty of peace has been signed. After it is ratified and acted upon in full and sincere execution of its terms, it will furnish the starter for a new order of events in the world."

It is a severe treaty in the duty and penalty it imposes upon Germany. It is a severe treaty in the duty it imposes upon the German people. It is a severe treaty in the duty it imposes upon the German people.

## Reception For Wilson When he Lands in States

President Should be in Washington Week From Tuesday and Message to Congress Will be Delivered the Day Following.

(By United Press.)

Washington, June 28.—President Wilson has agreed to a reception in New York when he lands, it was announced today.

An official message from President Wilson stated he was leaving Paris at 9:30 tonight, and it ended "All well."

His address on the peace treaty to congress will be delivered the day after his arrival if the present plans are carried out.

Without any accidents the president should be in Washington a week from Tuesday.

## CAPITAL RECEIVES NEWS WITHOUT RIPPLE

Congress Receives Word of Signing of Peace Treaty in Silence and Continues Work

## BAND PLAYS NATIONAL AIRS

(By United Press.)

Washington, June 28.—The national capital today received the word that the Germans had signed the peace treaty without practically a murmur or ripple.

Congress heard the news in silence and went on with their grind on the appropriation bill, which must be finished before midnight Monday.

At the news of the signing, the marine band started playing the national anthem.

## WAR COSTS MANY LIVES AND MONEY

Interest on Debt Will Involve High Taxation For Generations; Costs World \$186,750,000,000

ALLIES DEATH TOLL 4,810,000

Allies Must Pay Six Billion Dollars Annually to Pay Interest on War Debts

By J. W. T. ALASON  
(Written for United Press.)

The war which has officially ended today, has cost the world 7,560,000 in lives, and \$186,750,000,000 in money. The allies have paid a death toll of 4,810,000 and \$120,500,000,000 for victory. The central powers have lost 2,750,000 in killed, and \$66,250,000,000 in addition to the indemnity they must pay for their unsuccessful attempt to dominate the world.

It will cost the allies six billion dollars annually to pay the interest on their war debts. Germany's interest bill will be about two billion dollars yearly. The other central powers will probably repudiate their obligations, but if they don't their yearly interest will approximate \$1,300,000,000,000.

These annual charges will be increased for the purpose of paying off part of the principle of the war debts. The present European generation from now onward will have to raise at least four to five times as much money by taxation as before the war, or see the old world go into bankruptcy, with all bank accounts in danger of confiscation.

The following tables show how victor and vanquished have come through the war:

	Killed	Wounded
Germany	1,600,000	3,500,000
Austria	860,000	2,000,000
Turkey	250,000	400,000
Bulgaria	100,000	275,000
Total	2,750,000	6,175,000
Russia	1,700,000	4,000,000
France	1,400,000	3,000,000
British Empire	900,000	2,100,000
Italy	460,000	950,000
Belgium	100,000	250,000
Rumania	100,000	250,000
United States	75,000	210,000
Serbia	75,000	310,000
Total Allies	4,810,000	11,860,000

## Cost of the War

Germany	\$ 40,250,000,000
Austria	20,000,000,000
Turkey	5,000,000,000
Bulgaria	1,000,000,000

## YOUNG HUSBAND AMONG MISSING

Wesley Coers, 18, Who Married Nannetta Redenbaugh of Orange Township Mar. 29, Disappears

LEAVES PARIS GREEN BEHIND

Poison Purchased Few Days Ago Found in Wheat Field Friday—Young Wife Sues For Support

Mrs. Wesley Coers of Orange township, who has made her home for a number of years at the home of Mr. and Mrs. Phillip Redenbaugh and who went by the name of Nannetta Redenbaugh before her marriage March 29 to Coers, filed suit for support in the Shelby circuit court at Shelbyville yesterday afternoon, thereby divulging the fact that her husband had again disappeared.

Because of his actions, it is feared that Coers may have committed suicide, although his father, Henry Coers, believes that his efforts to buy a revolver and his purchase of a quantity of paris green, which was later found, were merely for the purpose of misleading his relatives, according to the Shelbyville Democrat, which publishes an account of the latest chapter in the rather stormy but short matrimonial adventures of Mr. and Mrs. Coers, both of whom are only eighteen years of age.

The father of Wesley Coers, who is also his guardian, is made a co-defendant in the suit for support, according to the Democrat. Mrs. Coers asserts in the complaint that she and Wesley Coers were married March 29, 1919, and the separation occurred last Friday, when the defendant deserted her and left her.

## CYCLOPS STORY IS FOUND TO BE HOAX

Mrs. Anna Ramsay Says She Never Received Message Saying Her Son Was in New York

MANY SIMILAR STORIES TOLD

A dispatch from Granville, S. C., today makes certain that the story coming from Columbia, S. C., a few days ago, to the effect that the Cyclops, missing United States collier, was safe in a German port, was a hoax pure and simple. Fred Beale, Jr., of this city, was a member of the crew of the Cyclops, all trace of which was lost. There have been many stories since the Cyclops disappeared about it having been "discovered" in some distant port, but investigations by the navy department and relatives of sailors who were aboard have always disclosed that they were falsehoods.

The story from Columbia said that Mrs. Anna Ramsay, mother of Otis Ramsay, a seaman on the Cyclops, had landed safely in New York and that the Cyclops was in a German port. Mrs. Ramsay states, according to a dispatch from Granville today, that she never received such a message bearing her son's name.

## TWO-CENT POSTAGE EFFECTIVE JULY 1

Monday Midnight Old Rates, Which Were Replaced by War Schedule Will Take Effect

MAY REDEEM 3-CENT STAMPS

Postoffice Will Also Take Back 3-Cent Stamped Envelopes and 2-Cent Postal Cards For Month

The two-cent postage rates, abandoned because it could not keep pace with war prices, comes back into its own again at midnight Monday night. The old two-cent stamp will again take a one-ounce letter any place in the country. Postmaster G. P. Hunt is expecting an order to redeem three-cent stamps.

The government will redeem 2-cent postcards and 3-cent stamped envelopes at full value for one month after the former 2-cent letter rate becomes effective, when presented by the original purchaser according to a bulletin received by Postmaster Hunt. It has been customary in the past for the postoffice to redeem stamped envelopes only at the postage value. The redemption will be made only in stamped envelopes or postage stamps of other denomination, and not in money.

The redemption values of unprinted stamped 3-cent envelopes is given as follows: No. 5, first quality, \$31.32 a 1,000; No. 15, second quality, \$31.16 a 1,000; No. 8, first quality, \$32.12 a 1,000. The redemption value of printed stamped 3-cent envelopes is: No. 5, first quality, \$31.60, a 1,000; No. 8, first quality, \$32.56 a 1,000.

The one-cent circular rate is again restored, as is the one-cent.

## TWO HUSBANDS ARE GIVEN DIVORCES TODAY

Wives Fail to Appear at Hearings of Suits Filed by Samuel Larrison and W. S. Stevens

DAN LONG GETS A JUDGMENT

Two husbands were granted divorces in circuit court this morning, the time which is set aside each week in the local court for the hearing of suits of this character. Samuel Larrison was awarded a decree of separation from Bertha Larrison, who defaulted upon payment of costs. William S. Stevens was also granted a divorce from Emma Stevens under the same conditions. Mrs. Stevens failing to appear.

Findings and judgment in the case of Dan Long against Fred Knapp for \$210 on an account. The judgment amounted to \$185.69, the principal and interest.

The petition of John H. Stevens, administrator of the estate of Daniel Sweet, to sell the real estate belonging to the estate, was granted and the land ordered sold at private sale one-half cash and one-half in six months. With the proceeds of all cash received from the sale of the land, the balance of the estate was to be paid to the heirs.

# HEAR NEW METHOD OF GRADING EXPLAINED

Thirty-Five Farmers at Meeting to Discuss Problems of Harvest—Loss From Disease

TOTALS \$420,000—DETRICK

Thirty-five farmers were present in the sheriff's office of the court house last night for the meeting to discuss the new wheat grading system, methods of saving wheat and means of increasing the yield.

Elmer Hutchinson, of Arlington, who toured the country with a government committee, explained the new grading system, showing that No. 2 wheat scores two cents a bushel below No. 1 and No. 3 seven cents a bushel below No. 1. Anything below No. 3, the farmer and elevator man must agree on a sample and send it to the agent who will fix the price. He explained how a farmer may take an appeal if he thinks he is not receiving enough for his wheat.

In discussing wheat diseases, County Agent Detrick said loose smut alone was costing the county \$220,000 a year by lessening the yield 110,000 bushels, enough to "bread" Rush county. Wheat scab is costing Rush county farmers \$100,000 and the stinking smut \$100,000, he said.

**Drama of North Woods Tonight**  
Charles Ray, the Thomas H. Ince Paramount star, appears in a decidedly new type of character in his new photoplay "Greased Lightning," which will be presented at Princess Theatre Monday.

We have seen Mr. Ray in past performances as the baseball player, the hired man, the young city sport, the spoiled mother's boy and the like, but no type of the past gives him such opportunity for his subtle comedy as does the small town inventor, a character he portrays with admirable taste in "Greased Lightning."

The play derives its name from a racing automobile, the product of the young inventor's genius, which fails to work until the crucial moment in the story. Then it becomes the speed demon that runs down the villain.

Mr. Ray is surrounded by a capable cast, including Wanda Hawley, Robert McKim, Willis Marks and others. The story was written by Julien Josephson and directed by Jerome Storm, under the supervision of Thomas H. Ince.

Tonight Mitchell Lewis will appear in "Children of Banishment," a powerful drama of the north woods, and a Mack Sennett comedy, "Foolish Age," guaranteed to give 2,000 feet of laughs, will also be shown.

# Comedy and Drama at Mystic

There are just 389 laughs in Marie Dressler's new comedy "The Agonies of Agnes," which on today will be shown at the Mystic theatre. That's the number of actual count as counted during the run of this record-breaking fun-feast at the big Strand Theatre in New York City. So fast did the laughs come during the presentation of this comedy at this theatre that it sounded like one continuous explosion of laughter.

The other picture on the program tonight is "Whatever the Cost," in which Jess Farley is starred. The heroine lived a secluded life along the rocky coast with her father and Uncle Dud, whiskey smugglers. When her father is killed she vows vengeance, whatever the cost.

Becoming one of the dance hall girls at "Black Jack" Fanning's saloon, she meets Paul Otard, the dance hall piano player, and Steve Douglas. She falls in love with Steve, not knowing that he is a detective sent there to apprehend the smugglers.

When she discovers that the gun found near her father's body belongs to Steve, Jess believes he is the murderer. How she learns that Paul is the guilty man and saves the life of her lover brings "Whatever the Cost" to a thrilling and satisfactory finish.

# MIMIC WARFARE HELD

Realistic "Over the Top" Spectacle Given at Olympia Today.

London, June 28—A realistic, "Over the Top" spectacle was the main feature of the Naval and Military Tournament, which opened at the Olympia today, after four years' absence, due to the competitors being engaged "over there" on the real thing. Detachments of all arms of the British Army engaged in mimic warfare, showing the mustering of the infantry for an assault, the machine gun rush, and artillery barrage (mainly smoke shells in miniature), supported by a couple of lumbering tanks, the ticking off of the last minutes to "zero hour," and all the paraphernalia of war. The actors' protest and things tame after their experiences.

Saturday night, June 28, there will be an ice cream festival on the lawn of the Homer Baptist church. Everyone is requested to attend. Proceeds to be used to remodel the church.

FREE DIRT Will have several loads for disposal from basement excavation. Phone Wm. Fendler, 2411 on 72nd.

# SULLIVAN FIRST REAL CHAMPION

First to Hold Heavy Weight Championship When he Defeated Jake Kilrain and Paddy Ryan.

# MANY HAVE HELD IT SINCE

Willard has Defeated his Title Once Before When he Fought Ted Moran a Ten Round Bout.

(Written for United Press.)

There was no real world's champion in the heavyweight class until John L. Sullivan made his claim of the title after having defeated Jake Kilrain and Paddy Ryan. The title was recognized as vested in him at that time and has been handed down through a succession of pugilists.

Sullivan was the first heavyweight champion under Queensbury rules and engaged in the first heavyweight bout ever contested with gloves when he was defeated by James J. Corbett.

Since Sullivan's time only one champion has held the title who was not an American—Bob Fitzsimmons. Fitz really was born in England, and came to this country from Australia. Several foreigners have attempted to wrest the title from holders in this country, but never has the effort been successful.

Sullivan lost his title to Corbett Sept. 7, 1892, at New Orleans.

Corbett was beaten in fourteen rounds at Carson City, Nev., by Bob Fitzsimmons, March 17, 1897.

Fitzsimmons was knocked out in eleven rounds at Coney Island, N. Y., June 9, 1899, by James J. Jeffries.

Jeffries defended his title successfully against several challengers, including Fitzsimmons, whom he again knocked out in eight rounds on July 25, 1902, at San Francisco. Tom Sharkey, whom he outpointed in twenty-five rounds at Coney Island, and Jack Monroe, who lasted only two rounds at San Francisco, Aug. 26, 1904.

Jeffries retired in 1905, and after Jack Root had been knocked out by Marvin Hart in a bout refereed by Jeffries, the champion presented Hart with the title and belt. Jack O'Brien claimed the title, but was given no recognition. The public also disliked to accept Hart and after Tommy Burns had defeated him on Feb. 23, 1906 and was subsequently defeated in 1908 in Australia by Jack Johnson, clamor became so great that Jeffries was induced to enter the ring to save the title from passing into the hands of a negro.

Jeffries proved an easy mark for Johnson in their memorable meeting on July 4, 1910. The negro won in fifteen rounds.

After Johnson's ascension of the heavyweight throne, the class of big fighters declined steadily. Johnson met Jim Flynn, a good, small man, at Las Vegas, N. Mex., July 4, 1912. Police stopped the unequal contest and the referee gave the decision to Johnson.

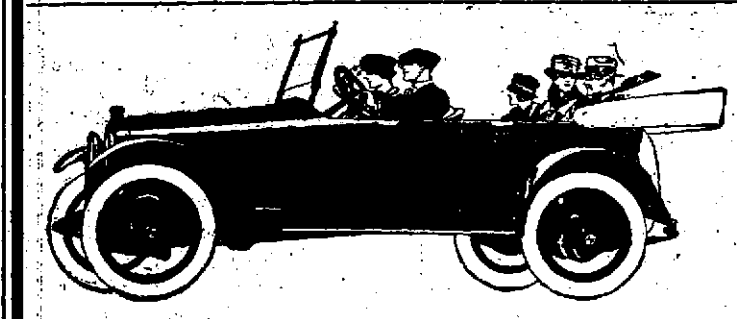

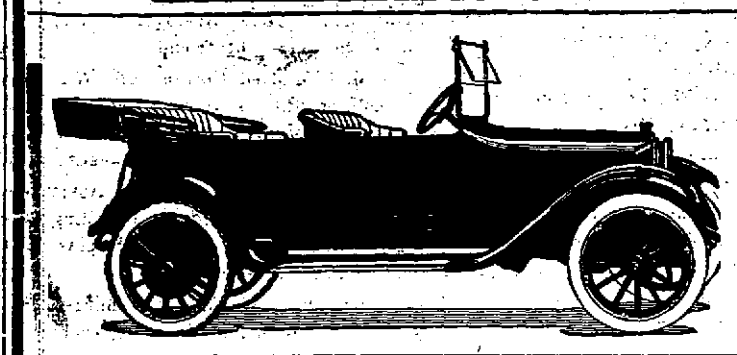

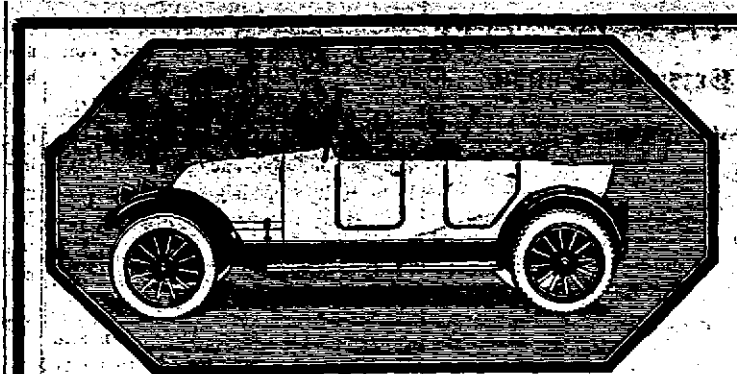

Johnson left the country in 1913, going to Europe, and a tournament was held in California for white heavyweights, which was won by Luther McCarty. He was recognized as the heavyweight champion of America.

On May 24, 1913, McCarty met Arthur Pelkey in Calgary, Canada, and was knocked out in the first round. He collapsed and died in the ring. Pelkey was reluctantly accepted as the white heavyweight champion, but was knocked out in fifteen rounds on Jan. 1, 1914, by Gunboat Smith at San Francisco.

This ended the so-called effort to dig up a white heavyweight championship, for the quality of the boxers was so poor that the public refused to recognize such a title.

In the meantime Johnson met and defeated Frank Moran, white heavyweight of Pittsburgh, in a twenty-rounds-in-Paris.

Jack Johnson agreed to meet Jess Willard on April 9, 1915, in Havana, Cuba, and was knocked out in twenty rounds. Willard claimed this as the one and only Frank Moran in a tame ten-round bout in New York, March 25, 1916.

with no knowledge of his whereabouts. She further charges that she has no means of support, while Henry Coers, manager of the real estate and personal property of Wesley Coers, which is valued at \$10,000, and she asks the court for support in the sum of \$20 a week.

The disappearance of young Coers and his wife a week after their marriage was the subject of much discussion. Mrs. Coers returned to her old home in Orange township about three weeks later and in a few days her husband returned. However, neither the young couple nor their relatives would give an explanation of their whereabouts or the cause for the mysterious action. Since their first return they have been residing at the Redenbaugh home.

After the first disappearance, Henry Coers, the father of Wesley, disposed of his farm and has been residing near Waldron. Last Friday young Coers attempted to purchase a revolver, but was refused the article by a storekeeper. Later it is said he purchased a quantity of paris green, but his family do not believe this was for the purpose of ending his life, but merely as a decoy. Mr. Coers, the father, believes that he has left for all time and will not return to his home.

Discovery was made yesterday of an overcoat belonging to young Coers lying in the field where he had been at work cutting wheat Friday of last week previous to his disappearance. In one pocket was the paris green he bought in a tin cup, while in the other pocket was a cap which he had worn. The articles were lying near a fence in the field.

Both Mr. and Mrs. Coers are but eighteen years of age and it is believed that troubles arose between them that caused the separation.

## FILES EXCEPTIONS TO AMEND REPORT

Mrs. Rhoda Wells-Owens Again Objects to Statement of Administrator of Husband's Estate

### SAYS FEES ARE EXCESSIVE

Exceptions have been filed in circuit court to the amended report of Frank J. Hall, administrator of the estate of James Wells, by Wells' widow, Mrs. Rhoda Wells-Owens, alleging that fees charged were excessive.

Exceptions were filed to the first report of the administrator, who was defeated at the hearing of the case. He filed a motion for a new trial, which was over-ruled last Thursday, and Mr. Hall was instructed to file an amended report showing \$300 not inventoried in the first report. The amended report was filed yesterday and the exceptions are the result.

Mrs. Owens alleges that the fees charged by the administrator are excessive, that the estate should not bear the expenses of defending the administrator in the hearing on the first exceptions to the report by paying the court costs or attorney fees. It is also set forth that the

item of \$14.95 for meals and care of the administrator is excessive and that the administrator, who was appointed in December, 1916, should have settled the estate within a year, as provided for by law, or obtained an extension of time.

## Noise is not Patriotism.

The first Independence Day since the end of the war should be a safe and sane celebration and a thoroughly patriotic observance. The old-time riot of noise, death, fire and destruction, which was supposed to show patriotism on the Fourth of July, would be very much out of place under present conditions. The country has had enough of powder-burning, bombs, and the maimings and burnings which were inevitable with the old-time celebration. They were discontinued during the war, and they should be given up forever.

The Sane Fourth movement has made remarkable progress in the past few years, and this year should see the end of the old absurdity of celebrating the nation's birthday with pistols and crackers, with their inevitable accompaniment of racing ambulances and clanging fire engines. The deaths from July 4 casualties, which were 466 in 1903, had been reduced by 1918 to 20, while the injuries, which were 3,983 in the first year, fell last year to 550. Formerly the firemen expected to be kept on the jump all day on the Fourth, but for several years, in Chicago and many other cities where fireworks have been prohibited, the number of alarms has actually been below the daily average.

With this record it should hardly need the recommendation of the State Councils of Defense and the Fire Marshals to secure municipal orders and individual co-operation against the use of explosives on the Fourth. The United States has burned powder enough recently without wasting any of it on Independence Day. Its list of dead and wounded in the cause of liberty is long enough without adding to it in an antiquated and absurd observance of the Fourth of July.

What a climax to an otherwise undebatable victory that the basis for peace advocated so early in the game by President Wilson should prove the argument of the enemy for refusing to sign a treaty, which only demands what she must rightly pay as the defeated would-be world conqueror! If there had been no 14 points no doubt the Germans would have cooked up some other excuse for not signing.

## A Blow at Waste.

Senator Cummins has introduced a bill designed to do away with the multitude of "press bureaus" that are now operating in Washington at government expense. Every governmental department and every sub-department are maintaining independent bureaus, giving employment to a host of clerks and alleged experts, duplicating efforts, engaging in useless activities, and spending government funds with a lavish hand.

There is not a newspaper office in the country that will not appreciate and applaud Senator Cummins' effort to corral these bureaus under one head and thus to eliminate a useless waste of public money. The amount of utterly useless propaganda that is poured upon the country, much of it duplicated and none of it essential, is simply appalling.

Each morning it is a considerable portion of the editorial task in every newspaper office to load the waste baskets with the "official bulletins," "department reports," and the bundles and sales of statistics concerning every conceivable human activity from bridge whist to Christian science, and from making cottage cheese to piano playing. The waste involved in all this nonsense—waste of man power, print paper, engravings, ink and mail service, is stupendous. At a time like this when retrenchment is so absolutely necessary, this prodigality is a positive crime against the people and it is sincerely to be trusted that Senator Cummins will make good. If he does, we may depend upon it that the dismissals from the public service will materially relieve the congestion at Washington.

## RADICAL CHANGES BEFORE EDUCATORS

National Education Association Holds Annual Convention in Milwaukee, Wisconsin.

## MOST IMPORTANT MEETING

Principal Task Will be Formulation of Educational Program to be Adhered to in Future.

Milwaukee, Wis., June 28.—Milwaukee took Boston's place in the universe today—as the hub of knowledge.

Thousands of educators from all sections of the United States began arriving in this city today to attend the annual convention of the National Education Association, which got under way this morning. Committee organization is being completed today and the convention proper will open on Monday.

Announced as one of the most important conferences in the history of the association, the convention's principal task will be formulation of an educational program to be adhered to in the future throughout the United States. This policy will be moulded by the leading educators of the nation.

Association officers state the educational policy finally adopted will probably be termed "radical", basing their opinions upon the work of the peace conference, which they declare will of necessity force changes in the present educational program.

Important legislative subjects which will receive consideration at the convention include: creation of a department of education with a secretary in the president's cabinet; a nationally higher salary for teachers and a progressive physical education program for all states. Resolutions embodying these aims are expected to be adopted by the convention at early session.

For the first time in its history, the convention this year has assumed international significance. Great Britain has sent the Rt. Hon. Herbert Lewis, Parliamentary Secretary, Board of Education, London, as its accredited representative while France is represented by Prof. Albert Fencler, head of the Department of English, University of Rennes, Rennes, France. Both are scheduled to address the convention on international topics in reference to education.

President Wilson has been invited to address the convention on July 3, but his reply to the invitation has been held up, owing to uncertainty of the date of his departure from Europe. Previously, the President had indicated his willingness to attend, if possible.

The speakers' program includes addresses by P. P. Claxton, United States Commissioner of Education; George D. Strayer, New York, President of the N. E. A.; Henry J. Waters, Kansas City; Ella S. Stewart, President Department of School Patrons, Chicago; Lee L. Driver, County Superintendent of Schools, Winchester, Ind.; T. G. Geeks, Supervisor Primary Dept., St. Louis; John L. Tildsley, Associate Superintendent of Schools, New York; E. C. Elliott, Chancellor of University of Montana, Helena; William B. Owen, Chicago Normal College, Chicago; Margaret S. McNaught, Assistant Commissioner for Elementary Education, Sacramento, Cal.; Mary C. Bradford, State Superintendent of Public Schools, Denver; J. Y. Joyner, Raleigh N. C.; Hugh S. McGill, Field Secretary of the N. E. E.; Washington; Anna L. Binzel, Minneapolis; Marie Turner Harvey, Kirkville, Mo.; Elizabeth S. Baker, Harrisburg, Pa.; Essie V. Hathaway, Des Moines; Guy Stanton Ford, University of Minnesota; John H. Finley, Commissioner of Education, Albany, N. Y.; Allen T. Burns, Cleveland; Cora Wilson Stewart, President of Kentucky Illiteracy Commission, Frankfort, Ky.; H. C. Morrison, Assistant Secretary State Board of Education, Hartford, Conn.; D. B. Waldo, President State Normal School, Kalamazoo, Mich.; Julia Lathrop, Department of Labor, Washington; Albert W. Whitney, New York; Geoffrey Morgan, London, England.

## War Camp Community Service Boston

The most important session of the convention will be held today morning, when a general discussion of educational problems will occur and the authors of the future educational program for this country will be appointed.

The convention will close July 4.

## PAINTER TO TELL FLIGHT OF NANCIES

Object of This was to Have Every Possible Record of Climate Conditions Portrayed.

## LT. C. E. RUTTAN TO BE ARTIST

His Paintings on Aerial Activity on Front in Europe Recently Were Exhibited.

By W. R. HARGRAVES.  
(U. P. Staff Correspondent.)

New York, June 28.—The association of art with the business of flying was revealed in a striking manner during the recent flight of three United States Navy seaplanes across the Atlantic. Although official government motion-picture men were sent to the Azores or the tender Melville to perpetuate on celluloid the scenes attendant upon the flight, government officials determined to have preserved every detail, so sent a painter in oils.

The object of this was to have every possible record of climatic conditions, atmospheric effects and cloud and sea views faithfully portrayed in color. These conditions it is said, cannot be as accurately depicted by cinematographers as in oils.

Lieutenant C. E. Ruttan, U. S. N., was the artist chosen for this work. His paintings of aerial activity on the war fronts in Europe recently were exhibited at the Aeronautical Exposition at Atlantic City and won generous praise for their fidelity and bizarre action. Ruttan is a practical aviator, having flown for several years and been instructor in aviation at one of the largest aviation schools. Thus his paintings of airplanes and seaplanes are true in detail in whatever position or condition a plane in his pictures may be.

Thirteen paintings were brought back by him on the Melville, and will be reproduced by the Navy Department for distribution with a view of increasing the already intense interest in aviation.

Ruttan's pictures show remarkable storm cloud and sea effects in some instances, and in others brilliant scenes of the picturesque harbor of Ponta Delgada, Azores, with the colorful glint of the semi-tropical sun on the bay attract immediate attention.

His scenes are of the NC-4 safely flying into the harbor of the NC-3, as she crept, battered and torn by seas, in behind the breakwater of the city, with destroyers and speed boats rushing out to proffer the aid that was refused. He also shows in life-like manner a view of the NC-3 as she was first seen, on the eventful afternoon of her recovery, with waves dashing over her hull and wings, and one of the crew, legs entwined in struts, signalling in semaphore: "We don't need any aid. We are coming in under our own power."

Other effective pictures are of the transfer of the crew from the plane to small boats when the harbor was reached; of the cheering, flag-waving crowds swarming the seawall when the planes came up the bay; of a plane speeding through the night by the light of the moon, and another of the NC-3, drifting backward with the crew, unable to turn around in their tiny cockpits, grotesquely silhouetted in their monkey suits, against the storm-swept sea.

## ASK RESTORATION OF STATUES DESTROYED

French Administration Wants an  
Appropriation of a Little Less  
Than One Million Dollars

### 27 COMPLETELY DESTROYED

Paris, June 10, (By Mail).—An appropriation of just a little less than one million dollars has just been asked by the French Administration of Fine Arts from the French government for the repair, of national monuments, either totally or partially destroyed by the Germans during their invasion and occupation of northern France.

The list submitted to the French parliament of national artistic monuments that sustained the brunt of the Germans' vengeance against French culture and civilization comprises twenty-seven that were completely destroyed and 213 seriously damaged. The list does not include scores of public edifices, churches and monuments of the highest artistic and historic interest, but which had not as yet been classed by the French government as "national monuments."

Amongst those figuring on the list, however, are the Chateau, wondrously destroyed by the Germans during Hindenburg's "strategic retreat" of March, 1917; the house of "Menetriers" at Rheims; the city hall at Noyon; the cathedral and bell tower at Arras and the Chateau of Ham.

## SEEKS REVIVAL IN EACH COUNTY

Church Federation of Indiana Addresses Letter to Each Church  
In The State

### UNITED EFFORT IS URGED

Goal is to Get One Thousand Converts in Each County, Making 100,000 For State

The Church Federation of Indiana sends out a letter to the churches through its evangelistic committee, the Rev. T. W. Grafton, D. D., chairman, calling attention to the endeavor to arouse the churches in a great plan of constructive, self-propagating revival to deepen the spiritual life of the church, and aiming at the conversion of a thousand people in each county, or one hundred thousand in the state. If the peace treaty is signed now by Germany, it is declared to be more imperative to keep the home fires and the altar fires of the church burning brightly to welcome the soldier boys home. The Federation, therefore, feels that it is all more the important that a united effort be put on by counties in Indiana. We herein announce that Dr. Charles L. Goodell, Executive Secretary of the Commission of Evangelism in the Federal Council of Churches of the United States, has been secured for five regional conferences beginning in Indianapolis in September, and probably next Marion, Indiana, and then three other large cities.

At this time the Federation is sending out a prayer card requesting prayer for the revival in Indiana and seeking to have individuals by this request to pray for their church, their county and their state. Ten thousand of these vest pocket prayer cards are being mailed this month of June. Pastors are hereby requested to preach on the subject of prayer as related to revival and call attention to this card in the pulpit or at the mid-week services. The following results will be sought for:

First, Stressing the importance of prayer, with an endeavor to increase the mid-week prayer meeting in each church by the use of a pledge.

Second, The effort will be made to deepen the spiritual life by more regular attendance upon the public worship, and increase the study of the word of God in the Sunday-school. That is, a drive for church and Sunday school attendance in each county.

Third, This is to be followed by the month's campaign of Evangelistic meetings in which the following is planned.

(a) Training and organizing personal workers and some form of special meetings in each church.

(b) Reaching the Boy Scouts and the boys of the organized Y Boy's Work in each county and bringing them into union with the church work.

(c) An effort to utilize the music forces in a county during the month of the county campaign.

Pastors are asked to form a county organization, the form of which can be obtained from the Federation office, 710 State Life Building, Indianapolis, Indiana, addressing the Executive Secretary.

### BOY BREAKS LEG IN A FALL

Lyle Thrall, 11, Tumbles Out of Tree at Home Near Nashville

Lyle Thrall, age eleven years, son of Mr. and Mrs. Curtis Thrall, living southwest of Nashville, fell out of a maple tree at his home yesterday afternoon and the bone in his left leg between the ankle and the hip was broken. The boy and some playmates were climbing the tree for the sport of the thing when he lost his grip on a limb and fell to the ground, his leg striking a root of the tree which protruded from the ground. Lyle's younger brother was perched higher up in the tree when the accident happened.

Thrall is now being kept in bed.

# What is an Advertisement?

The word advertisement is derived from advert, which means "to turn the mind toward."

The purpose of advertising is usually to sell something—either service or merchandise. Advertising, therefore, is the art of selling through publicity.

The United States is the leading advertising nation of the world. The story of the success of its merchants and manufacturers through advertising, reads "more like the tales of the Arabian Nights than the sober facts of the Twentieth Century."

Advertising helps to make a business successful. But advertising cannot—will not, do it alone. The product must be right and the price must be right. These are first essentials.

Advertisement — noun — derived from the word advert—meaning "to turn the mind toward."

Mrs. Wilbur Stiers entertained the members of the Evening Card club last evening at her home in North Perkins street. The guests spent the evening over the card tables playing Five Hundred and refreshments were enjoyed at the close of the playing.

Miss Velma McClure delightfully entertained last evening about forty of her friends with an informal party at her home west of Falmouth. The color scheme for the decorations were the patriotic colors of red, white and blue and flags were used throughout the rooms in profusion. After spending the evening with music, contests and dancing, refreshments were served.

A beautiful one o'clock luncheon was given at the home of Miss Alaine Budd in North Harrison street yesterday afternoon, honoring Miss Dorothy Henderson of Berkeley, Calif., the house guest of Miss Ruth Innis. The small tables where the delicious two course luncheon was served were decorated with garden flowers, snap dragons, being used for the place cards. Among the out-of-town guests were the Misses Susan Morris, Marian Gronendyke, Lois Mouch and Harriet Goodwin of Newcastle, and the honored guest, Miss Henderson.

When the house met and heard the announcement of the treaty being signed, a short burst of applause was heard.

As the work was getting under way the democrats queried the republicans across the aisle as to who did it?

### SAD BLOW TO GERMANS

Berlin, (By Mail).—The average German thinks he had about enough adversity in the food and drink line, but he got a body blow when it was announced that his beer hereafter would cost him more than before.

At present, he gets a big stein for 50 or 60 pfennigs, and while the advance is marked in wholesale terms the national beverage per glass will soon be more expensive over the bar.

The German beer at present is a mild solution, rather after the fashion of the American "near-beers."

## LACK OF FOOD IN ARMENIA REPORTED

There Will Be No Crops This Year Because Entire Country is Devastated.

### ARE EATING HUMAN FLESH

Lieut. Melville Chater Reports Conditions on Return From Tour of Country.

London, June 15 (By Mail).—"Unless Armenia is given help, the people will starve to death within twelve months."

This was the statement here today of Lieut. Melville Chater, New York City, novelist and American Red Cross worker, who has just returned from a tour of Armenia and the Trans-Caucasus.

Armenia is starving. Prospects for the future are bad. There will be no crops this year because the entire country is devastated as a result of the invasion by the Turks.

"At present, Armenians in the country are eating human flesh. I didn't see this personally, but I verified it through members of American relief commissions in Armenia. Armenians are without meat, bread or vegetables. The only nutriment they have is herbs, which are dug up from the fields and used to make soup. The famine does not extend to the towns where there is some food, but it costs seven and eight dollars for a plain meal. Some flour was brought in by American commissions, but only enough to make a thin sprinkling. I give Armenia twelve months more to live unless food is brought in.

Thirty thousand Armenians were massacred at Baku, on the Caspian Sea, last December by the Turks, according to Chater.

"The Armenians consisted of refugees fleeing before the Turkish advance during the fall of 1918," Chater said.

## SIGNED WITHOUT ANY MENTAL RESERVATION

German Signatories Declare German People Will Use Every Means to Meet The Terms

### CHANGES WILL BE NECESSARY

(By United Press.)

Versailles, June 28.—Foreign Minister Maeller and Colonial Minister Bell, German signatories, today made the following statement explicitly to the United Press:

"We signed without mental reservation! What we are signing will be carried out. The German people will use every means to meet the terms.

"We believe the entente will in its own interest find it necessary to change some of the terms or they will see the treaty is impossible.

"We believe that the entente will not insist on the delivering of the kaiser or other high officials.

"The Central government will not assist in any attack on the Poles. Germany will make every effort to prove herself worthy to enter the league of nations."

### PROJECTS OF RED CROSS IN PEACE TIME

Vacation time is swimming time. American Red Cross life-saving instruction in the schools and gymnasiums will reduce the number of deaths by drowning this summer.

Six American Red Cross nurses are giving Serbia its first house cleaning. They went over to fight the typhus plague but true to their traditions of American springtime renovations they are spending their free hours in scrubbing, whitewashing, screening windows and draining cesspools.

Sixty per cent of the children who die of preventable diseases come from rural communities. One of the plans of the American Red Cross peace program is to establish public health nursing service in communities where none exists and to supplement the work of existing social agencies in districts where the present forces are inadequate for the community needs.

In one small Ohio town 7,000 tooth brushes are at work on teeth that had never been cared for until it was made one of the chores of the modern health crusade conducted by the Junior Red Cross and the Anti-Tuberculosis Association. Over 15,000 children in one county who were accustomed to sleeping with closed windows are having fresh air in the bedroom the year round.

The food shortage, abroad will be greater than ever next year, reports Frank A. Vanderlip, after a three months' economic inspection of Europe. This is because lack of seed, work animals and machinery makes it impossible for Russia, Rumania, Poland and other countries to raise enough grain to export. The American Red Cross will carry on in its work of feeding starving thousands.

### GERMANS ARE FIRST TO AFFIX THEIR SIGNATURES

Continued from Page One  
formed in all points to the revised document presented June 16.

Forty-five soldiers from the ranks of the British, French and American armies were on hand to witness the signing, as representatives of the great military force that overthrew the German war lords and made possible the restoration of peace. The American army was represented by fifteen stalwart doughboys. There were fifteen Polish and fifteen Tommies.

The peace treaty was deposited on the table in the Hall of Mirrors at 2:10 o'clock by William Martin of the French foreign office. It was inclosed in a stamped leather case. Premier Clemenceau entered the palace ten minutes later.

SOLDIERS CONSUME OCEANS OF LIQUIDS

American Doughboys Tarried Long Enough at Red Cross Hut at Toul to Eat 1,561,625 Sandwiches.

PUT AWAY A FEW DOUGHNUTS

Washington June 28—Oceans of coffee, chocolate and lemonade, mountains of doughnuts and sandwiches and pyramids of ice cream were consumed by the 1,621,417 American doughboys who passed through the American Red Cross canteen at Toul during the last eleven months. The Toul refreshment station, long known as "one of the busiest Red Cross spots in France", is located in the original American battle sector at a point which enabled it to feed almost as many soldiers as there were in the American Expeditionary forces. Many interesting figures regarding the canteen's activities are contained in a report received today at Red Cross Headquarters.

American fighting men tarried there long enough to eat 1,561,625 thickly constructed, well-filled sandwiches and 461,114 doughnuts. During the big American troop movements in the Toul sector last June the canteen served 3,000 men a day, the soldiers of the Twenty-sixth, Seventy-seventh and Eighty-second divisions being cared for as they passed through in trains. No effort was made to keep track of the number of cigarettes and quantity of tobacco passed out to the men at this point. During the American offensives last September 18,000 soldiers received refreshments as they were carried into and vacated from a hospital two miles outside of Toul.

Originally the canteen was established in a fifty-foot tent in the railroad yard at Toul, but with the rapid increase in the number of men to be cared for the Red Cross took over an entire hotel close by for the work. As many as 7,000 soldiers found lodgings there in a month, the number cared for in this way rarely dropping below 3,000. More than 200,000 soldiers received meals there during the month of January. The shower baths have been used by 70,000 soldiers. General Pershing recently inspected the canteen and complimented the managers.

ENGLISH WANT MAP OF ENGLISH CHANGED

Great Scheme of Land Reclamation Has Just Been Started on Lincolnshire Shore.

WILL BUILD AN EMBANKMENT

(By United Press.)

London. (By Mail.)—Having successfully assisted in changing the map of Europe, Englishmen are bent on changing the map of England. Under the direction of the Board of Agriculture, a great scheme of land reclamation has just been started on the Lincolnshire shore of the Wash—that bay on the east coast between Lincolnshire and Norfolk.

For a great many years the sea has been encroaching on the land at this spot, and pessimistic mathematicians have found a glorious pastime in trying to decide just how many years it will take to wash away the whole of England.

Now, however, they are doomed to disappointment, for a body of engineers have decided to build an embankment which will push the sea back, and by this means it is expected to recover about 12,000 acres.

The workmen employed on the job will have an added interest in their work, because it was at this spot that King John (of Magna Charta fame) lost all his jewels and magnificent equipment. English children are taught at school that King John was crossing this particular stretch of country with his jewels, money, and most of his portable possessions, when the sea rushed in and swept them all away.

So now an army of demobilized and discharged soldiers and sailors are attacking the job, some of them not so intent on pushing the sea back as in finding the haubles.

It is expected that the new county thus reclaimed will be known as "Victoria County."

Thousands of Cases of Dyspepsia— BUT ONLY ONE

PEPSINCO

PEPSINCO is the only indigestion remedy that we know—and we know lots of so called dyspepsia cures—that will almost infallibly relieve an attack of indigestion, food distress or gas. We could almost make claims that would appear impossible, so seldom does this PEP-SINCO fail. But why not consider the recommendation of thousands of people who have used PEP-SINCO, on the basis of their belief in it. Try it yourself; we are sure that the suggestion will appeal to you—you who suffer with indigestion or stomach faults—try PEP-SINCO to-day.

Ask your druggist—he sells and recommends Pepsinco.

AVIATION STUNTS FOR THE BRITISH PEOPLE

Civilian Aviators Near London Are Doing All The Thrills Every Day

PRICES VARY ACCORDINGLY

(By United Press)

London, June 16. (By Mail)—"Shooting the chutes" and "Roller coasters" are "has-beens."

Civilian aviation firms here are out with the latest thrills and it is expected Americans will soon follow.

The thrills consist of flights divided into seven kinds, as follows:

The Spiral at \$5 a trip, in addition to the regular fare of \$10; the Roll, which is a series of slight dips, at \$2.50; the Grand Roll, a series of slight dips, at \$5; looping the loop, at \$10; the Falling Leaf, at \$5; the Stalling, at \$5; and a plain old-fashioned flight, at five dollars.

The falling leaf is considered the best thriller. It consists of running the plane at full speed and then tilting the machine on one of its wings until it begins to fall sideways with the lower wing pointing to the ground. Then the pilot swings the plane over on its other side. The thriller ends with a nose-dive landing.

Easter, crowds stood waiting their turn to get a thrill.

In addition to the above thrills there is a thriller for children. It is called the "Little Roll" which consists of a series of very slight dips at a low height.

FRANCE PLANS FOR JULY 1 NATIONAL BIG CELEBRATION BUTTERMILK DAY

To Mark France and the Allies Victory at Close of War and Will Last For Three Days.

1ST DAY IN HONOR OF DEAD

Second Day Will be the Victorious Return of Divisions From Front Under Arch of Triumph

By HENRY WOOD  
(U. P. Staff Correspondent)

Paris, June 15. (By Mail)—France has just outlined the general nature of the victory celebrations that are to mark for France and the Allies the close of the war.

They are to last for three days, and it is planned to make them more imposing than any triumphal entry that has been staged since the days of the victorious return to Rome of the legions of the Caesars. France's victory celebration, imposing as it may be, will, however, also be a trifle more human.

The first day of the great celebration will be given over entirely to tribute to the memory of the dead. In all probability the millions of dead whose memory will be revered will far exceed the actual number of living troops that will be able later to march under the Arch of Triumph and down the Champs Elysees in the grand final triumphal march.

For the commemoration of the dead, the great Arch of Triumph will be draped in countless thousands of yards of mourning. An all-night death watch will be maintained by picked troops, and on the morning of the beginning of the three days' celebrations, the widows, the orphans, and the surviving relatives of the millions who perished during the war will be escorted to the Pantheon where there will be buried and deposited on behalf of France the ashes of dead soldiers gathered from the battlefields of France, and mixed with the earth of the battlefields on which they fell and from which their remains were exhumed.

This national interment in France's temple of immortality will be symbolic of the interment of all the 1,700,000 French soldiers who gave up their lives in the great cause.

On the second day will come that long-awaited for over four years was the far-away dream of every French poilu—the victorious return to Paris of the regiments and divisions from the front, their passage under the great Arch of Triumph, and their triumphal march down the Champs Elysees to the Place de la Concorde, then the sweep down the great boulevards to the Place de la Republique, with every inch of the way jammed with wives, daughters, mothers and sweethearts. The poilu has long dreamed that that moment would repay him or all the years and sufferings of the war.

On the last day of the celebrations, all of the French provinces will gather in the Tuileries gardens and welcome back to their arms their restored sisters of Alsace and Lorraine. Delegations from each of the French provinces, composed largely of women and girls, and wearing the native costume of their particular province, will participate in this festival.

France has no intention of barring her Allies from the big celebration and detachments of Allied troops will participate in the big triumphal march.

When the French poilus and the soldiers of the Allies march through the Arch of Triumph the flags which Germany captured in 1870 will be given a place of honor in the procession. The peace treaty calls for the immediate return of all colors captured by the Prussians in the course of the 1870-71 fighting, and it is hoped in Paris that the regimental emblems will be on hand for the great celebration. For nearly fifty years these flags have been on exhibition in Berlin.

The Thomas Changeable Speed Mower

The great exclusive advantage of our two-speed mower is bringing us an ever increasing trade. No other mower has it. You don't have to run the mower all the time on the usual fast speed required for heavy cutting because in medium grass and hay and light hay, weeds, etc., you can use the slower speed and thus save a great deal of wear on the machine. These gears run in a bath of oil. The sickle bar has three adjustments.
